EDUCATION

Marwadi University, Rajkot, Gujarat **CGPA: 8.59 / 10.0**
B.Tech in Computer Science & Engineering

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript (ES6+)
Frontend: React.js, Vite, HTML5, CSS3
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, Mongoose, MySQL, SQL
Tools: Git, GitHub, VS Code, Postman, n8n

PROJECTS

Course Selling Platform – MERN Stack
- Built a full-stack web app for selling online video editing courses using MongoDB, Express.js, React.js and Node.js.
- Implemented course listing, user authentication, video preview and a secure purchase flow.
- Designed a responsive React frontend and REST APIs; stored users, courses and transactions in MongoDB.

Campus Voice (Student Feedback) – MERN + n8n | Live: student-feedback-kappa.vercel.app
- Built a MERN app to collect student feedback, with a React (Vite) form and an Express/Mongoose API storing submissions in MongoDB.
- Automated notifications with an n8n webhook that triggers on every new submission; deployed live on Vercel.

Tanishq Jewellery Clone – React.js | Live: anish-thakur-code.github.io/Tanishq-Clone
- Built a pixel-perfect, responsive clone of the Tanishq e-commerce site with hero banner, category, collections and bestseller sections.
- Created a navigation bar with category filters (Gold, Diamond, Earrings, Rings, Wedding); deployed on GitHub Pages.

Weather App – HTML, CSS & JavaScript | Live: anish-thakur-code.github.io/weather-app
- Built a weather app in vanilla JavaScript using the OpenWeatherMap API with city search showing live temperature, condition and icons.
- Practiced API integration, DOM manipulation and async fetch; deployed on GitHub Pages.

CODING PROFILE

- Solved 60+ LeetCode problems across multiple DSA topics, including arrays, strings and recursion.
- Focused on writing cleaner solutions and improving their time and space complexity.

CAREER OBJECTIVE

MERN stack developer who builds and deploys full-stack web apps, from REST APIs and MongoDB to responsive React interfaces and n8n workflow automation. Seeking a Full Stack / Web Development internship to apply my technical skills, contribute to real-world projects, and keep growing as a software engineer.
